## ABOUT US

Stagecoach Cartage and Distribution LP. is pleased to announce the purchase of the facilities and operations of the former EPT Warehouses in El Paso, Texas. The former EPT Warehouse operations trace their roots back to 1899 and were part of the Southwestern Warehouse Company. We are proud to add this well established brand to the Stagecoach family

The combined operations now offer over 900,000 square feet of public/contract warehouse space on the Texas/Mexico border and offer a broad scope of services including Dry / Cooler / Freezer facilities, rail (reciprocal switch with access to UP and BNSF), bulk commodities and full service trucking.

The safety and security of our people, facilities and customer products are our first priority and we maintain high standards for each. With a comprehensive drug testing program utilizing the latest and best technology, not only can we be assured that we are hiring the best people, but our safety and training focus ensure that we have a commitment to safety and security that is unsurpassed in the industry today. Our passion for safety has not gone unnoticed. The Truckload Carriers Association named us Grand Prize winner for their 2007 Fleet Safety Awards program.

Our innovative thinking was recently recognized by Commercial Carrier Journal as we were selected as an Innovator in November 2007 for our truckload operations and becoming the first U.S.

Carrier certified under NAFTA to obtain Mexico operating authority. Combining a host of talented and motivated personnel, strategic facilities and the latest in technology, we can offer a variety of customized programs to fulfill our customers' requirements.

## WAREHOUSING

With 800,000 sq. feet operating out of 9 facilities, Stagecoach has a strong commitment to warehousing in El Paso.

- Logistics services including warehousing, transportation, cross docking, and transloading
- We utilize lift trucks with capacities ranging from 3,000 to 55,000 lbs. with all necessary attachments to include roll, box and barrel clamps, push pulls (slip sheet) and bar arms
- Rail service with flexibility to handle box cars, gondolas, hoppers, a-frames, and flatcars
- Wide range of products handled including plastics, medical supplies, automotive, consumer goods, steel sheets, steel coils, lumber, paper rolls, aluminum ingots, as well as rebar
- With lifting capabilities of up to 55,000 lbs and 60' lengths, we can handle most any item shipped via rail
- Computerized inventory management with customer ability to view current inventory on-line via Internet
- Stagecoach operates 1,125,000 cubic feet of freezer space. Freezer temperatures range from -4f to -22f that are ideal for storage of any variety of frozen products
- We also operate 118,750 cubic ft. of cooler space at a constant 38 degrees which is ideal for date sensitive products, such as dairy and cheese

- Pick and pack operation
- Shrink wrapping and stenciling
- Bulk transfer and packaging
- Rework and inspection
- Paper roll and appliance clamps
- Service in and out of Mexico
- Bar coding

## TRUCKING SERVICES

Stagecoach Cartage was the first U.S. carrier authorized under NAFTA to be granted Mexico operating authority. In addition, our passion for safety was recognized by the Truckload Carriers Association (TCA) when we were awarded the Grand Prize Safety Award for 2007. Stagecoach can offer a full compliment of transportation services including:

- First U.S. Carrier authorized under NAFTA to be granted Mexico Operating Authority
- Grand Prize Safety Award Winner 2007 by Truckload Carriers Association
- A bonded carrier providing team service, satellite tracked equipment for time and service sensitive customers
- E.D.I. and Internet based load tracking available for all customers
- Truck load service to the West Coast, Southeast, Midwest as well as all Texas/Mexico border points, including El Paso, Presidio, Del Rio, Eagle Pass, Laredo, McAllen, Brownsville and the Rio Grande Valley

- Less than Truckload (Border Express) LTL service provides overnight delivery to Del Rio, Eagle Pass and Laredo and second day service to McAllen, Brownsville and the Rio Grande Valley
- Comprehensive local cartage services along all our border locations
- Programs are designed with flexibility so they can be customized to fit individual needs
- Services include intermodal drayage (TOFC/COFC)
- Local pickup and delivery
- Dedicated yard spotting operations and yard management
- Dedicated local tractor programs
- Dedicated local tractor support of both equipment and drivers
- A full range of bulk transportation and packaging services
- Unload from railcar or ocean container and deliver direct to customer silo or box
- Provide cross border transportation into Juarez or other Mexico locations
- Handle shipments throughout the entire process to ensure quality service
- A U.S. Customs Broker on our executive staff enables us to provide a range of services that integrates our warehousing, truckload, bulk and cartage operation in the U.S., as well as Mexico
